RE: Graduate

Dear Madam/Sir

Your company recently posted a vacancy for graduate programme on the company's website, for which I'm enthusiastically applying for.

I'm a Graduate with a Bachelor of Technology from the University of Johannesburg in the field of Electrical Engineering, who is flexible, adaptable and able to manage priorities at the same time, all of this makes me believe that I would be a strong candidate for the position. As a driven individual who wants to progress, I'm looking to work in a energetic and performance-driven environment where talent and hard work is not overlooked. I feel that your innovative and exciting company is a natural place for a hardworking team player like myself who is forward thinking, fully accountable and reliable.

I also consider myself to be a personable professional whose strengths include cultural sensitivity ability to build rapport with a diverse workforce in multicultural settings.

One of my strongest points is self-motivation which allows me to perform well under pressure and against aggressive deadlines in any pressurized environment. Being a highly analytical thinker, I am able to quickly identify, scrutinize, improve and streamline complex processes.

My enclosed resume, will provide you with greater details of my background and what I have to offer. I look forward to receiving a call from you in a few days' time to arrange an interview with you at a mutually convenient time. In the mean time I would like to thank you for considering my application.

Yours sincerely,

Thabo Sepapa Makuwa.

### PROFILE:

---

My primary goal is to apply my technical expertise all throughout the full software life cycle to ensure production and delivery of products and services that meet client specifications. Along with a competent software developing team, and with strong personal knowledge, skills, and experience in software engineering, I am positive that this goal can be achieved. My experience as junior software developer enhanced my abilities in designing, implementing, testing, and upgrading software. One of my objectives is to keep updated with the latest IT trends and technologies. I am confident that if given the opportunity, I can be of great value to the company.

### PERSONAL SKILLS AND COMPETENCES

---

Hands-on experience in developing codes for software applications  
Extensive knowledge of C++/C, C#, .NET, CSS, HTML5, PHP, Linux shell scripting, JQuery, Javascript, QT4, PostgreSQL, VB, Java and SQL  
Circuit Design and simulation using Proteus 7  
Extensive knowledge of application architecture principals  
Familiarity with database design, development, and SVN  
Ability to develop Graphical User Interfaces  
Excellent verbal and written communication skill  
Ability to work as part of a team and with minimal supervision

### EDUCATION

---

DIP: ENGINEERING: Computer Systems FROM University of Johannesburg	2014 – 2017
BTECH: Electrical Engineering	2018 – 2018

### EMPLOYMENT HISTORY

---

DetNet SA PTY(LTD) Junior Software Developer	2017 – July 2018
---	------------------

- : Developed front-end and back-end applications in PHP, SQL, C, JavaScript, jQuery and HTML5.
  - : Developed User Graphical Interfaces using HTML5, QT4, C/C++, Python, C#.
  - : Installed and configured Centos 7 as development environment.
- Developed technical specifications documentations for new projects.  
Participated in creating project plans, release plans and coordinated with Tester to test and debug software applications.
